## “Black Crosses in the Sun”

**AURORA  
BY NOON**

"**AURORA BY NOON**" delivers a masterful blend of classic rock and heavy metal on their latest release, "**Black Crosses in the Sun**". The Austrian project showcases their impressive musicianship and songwriting, taking listeners on a deeply emotional journey. The album's dynamic depth is heightened by the fascinating concept and thoughtfully crafted lyrical story.

The record is a compilation of previously unreleased tracks written and recorded by the band over the years, many of which were created during the pandemic. Markus Sumereder, the band's bassist, and music producer, brings together a group of international musicians to bring these gems from his vault of old and new unissued treasures to life.

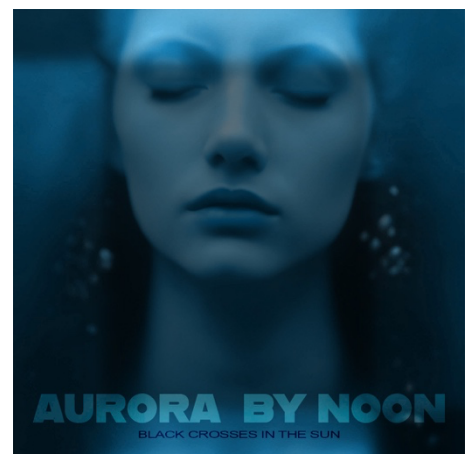

Markus also serves as the leading creative force behind the band's management and production processes. Joining him on the record are Adam Hayman on guitars, Alexandre Emidio on drums, Björn Mehler on vocals and Mark Brown on keyboards and synths. Despite the music being recorded online and from a distance, the album feels cohesive and genuine.

The album's twelve compositions were put together over the past two years, with the title track and overall theme revolving around the current events in Ukraine and the unimaginable war that has become our reality. The record tells the story of a person who has flashbacks and memories of playing war-themed games during his childhood and later sees with his own eyes how those games have turned into reality in present times.

Standout tracks include "**Dirty Rules, Dirty Games**", "**Black Crosses in the Sun**", "**Reasons**", "**No More Crying**", "**Sleepless**" and "**Thief in the Mirror**". Each song offers a unique and powerful emotional experience, while the album as a whole takes listeners on an intense rollercoaster journey.

"**Black Crosses in the Sun**" is an awe-inspiring and thought-provoking release that showcases **AURORA BY NOON**'s undeniable talent and artistry.
