

triotonic

homecoming

ATS
RECORDS

triotonic's latest cd – a fascinating mixture of european jazz and classical romantic music.

atmosphere and passion – in the eleven songs on the latest album **homecoming** melancholic silence and hymnal euphoria melt to a charismatic vision of timeless music.

... triotonic accomplish to make demands on both the heart and the brain.
give free rein to emotions, transform feelings and fantasies into music...

X-ACT (A)

...moods rank first for triotonic. approximately like in brad mehldaus's earlier works, the three gentlemen describe feelings which flow into their jazz...

... you don't get lost in harmonising irrelevance, a musical statement is delivered, I have to say it is very much appreciated.
